Dear Potential Sponsor,

We are Bay Shore STEAM Corporation, a nonprofit organization dedicated to supporting STEAM (Science, Technology, Engineering, Arts, and Mathematics) education in our community. We work closely with students and educators to foster hands-on learning experiences, innovation, and career readiness, including supporting Bay Shore High School's FIRST Robotics Team 271, The Mechanical Marauders and Bay Shore High School's Manufacturing Club.

Through programs like FIRST Robotics, we help students design, prototype, and build advanced robotic systems while developing critical skills such as problem-solving, teamwork, and leadership. Our efforts extend beyond robotics, promoting equal educational opportunities and encouraging creativity and innovation in Title 1 schools and other underserved communities.

However, to continue providing these transformative programs, we rely on the generosity of sponsors like you. Each year, Bay Shore STEAM Corporation raises funds to cover program expenses, including registration fees, materials, equipment, and travel costs for events. Our goal is to raise \$75,000 annually to ensure our students and teams can participate at the highest level of competition while gaining the skills and confidence to succeed in their future careers.

By sponsoring Bay Shore STEAM Corporation, you become a key partner in shaping the future of STEAM education on Long Island. Your contribution will not only enhance our programs but also provide visibility for your organization through our website, newsletters, and event materials. Sponsorship also creates opportunities for mentorship and recruitment of talented, passionate, and innovative students.

Sponsorship Levels
